## Slow Down And Live

Take some time off from doing and think. In other words slow down and live.

The college student has become a most amazing automatic robot. He can type a forty-page paper and not know a word that has been written; he can work a page of math by process or formula, and it never dawns on him as to why or how the problems were solved.

In short, he is so wrapped up in getting enough education that he loses sight of one of education's main goals—to make an intelligent thinker.

Because students do more, they feel they should relax more, and again the race is on. It doesn't seem logical to the college student that he relax in a hurry. Rather it seems a necessity. He must get everything done, even if it's only partially so.

It may be true that college students are too busy, but this is because of their surroundings. College students ignore the "Slow Down and Live" sign just as the adult world does.

Accelerated learning is a marvelous invention, but a little time off with nothing to do but think about what's going on might help the purpose, as well as the progress, of the youth of today.

## They're Talking About . . .

they're talking about. . .the faculty member who complained that his students were so poorly prepared in English that they didn't even know the noun tenses. . .mites in the dorm. . . Honors Assembly. . .the length of skirts. . .cleaned up rooms. . . graduation. . . yellow polkadot shorts? . . . candles in the den. . . darkened quads. . .the weather. . .bells, bells, and no bells. . . finals! !! To go home or not to go home—that is the question.

## Ars Longa, Vita Brevis, but Shorts?

How short are shorts? This question was raised in last week's Missourian.

The Dictionary of American Slang defines Bermuda shorts as "knee length shorts."

The Montgomery Ward Catalog, Summer, 1961, illustrates Bermuda shorts as covering the knee. The term is not used in the 1962 catalog.

Beverly Nichols once said, "When a woman is wearing shorts, her charms are enlarged without being enhanced."

And for men, Bill Nye commented, "Let every man who pants for fame select his own style of pants and go ahead."

## Demonstrations Not Always Overt

Students at North Texas State University are finding new ways to respond to a recent official statement frowning on public display of affection in dormitory adieus.

One night about thirty couples were congregated in front of a girls' dormitory, reports THE CAMPUS CHAT.

When the lights blinked, signalling the girls to come in, everyone started shaking hands and saying, "Thank you for a great evening, pal, see ya around."

Then they all had a big laugh, and the men departed.

## CSC Announces New Standards

The student teaching program at Central State College, Edmond, Oklahoma, has announced the school's new requirements which are to go into effect immediately.

The requirements for minors have been raised to 18 hours and a maximum of 10 hours in general education may be applied to a major or minor where feasible and applicable. These ten hours may be so divided as to count toward either major or minor studies, but the same courses may not be applied to both major and minor.

## KDP Holds Initiation Ceremony

Kappa Delta Pi will hold its initiation ceremony for second semester pledges this afternoon at 4:45 p.m. in the J. W. Jones Student Union.

Only the junior and senior members will be initiated as the sophomore candidates will not be eligible for active membership until next fall.

Juniors and seniors to be initiated are Jon Baier, Fay Boner, Carol Borngesser, Mary Lee Clements, Elinor Fine, Kay Fisher, Mrs. Ruth Fothergill, Rose Ann Gard.

Shirley Gibson, Ron Guthery, Carol Heidtbrink, Paul Jones, Ivan Lyddon, Bob Mathew, Marilyn Wallis, Caroline Willis, and Roberta Kay Wright.

Requirements for membership are an overall B average and a desire to enter the teaching profession. Dr. John Harr is counselor for the organization.

## The Stroller

Certain happenings sometimes bring forth poetic thoughts

Twas the night of the meeting  
And all through the lot,  
All the cars were untouched,  
But one car was not.

When the driver returned to  
Her auto that night,  
What a strange look befell her. . .  
What was her plight?

A blanket was draped  
On the windshield with care,  
And from the radio antenna  
Flew some slacks in the air.

Removing the "ornaments"  
From their positions so new  
She got into the car  
With the rest of the crew.

A turn of the key,  
Some pressure of the shoe,  
The car sorta' coughed,  
What would she do?

She finally got it started,  
It sputtered and died,  
It seemed to be powerless,  
No matter how she tried.

With a sigh and a hope  
She tried it again,  
This time it didn't die,  
She just had to win.

This all was so strange,  
What had happened that night?  
The car had been tampered with,  
It gave her a fright!

Backing out of the parking place,  
The car sputtered and spat,  
It backfired one time, then again  
Did she have a flat?

Certainly not, she reasoned  
And pushed on the gas,  
The power displayed  
A snail couldn't pass.

After a long ride to  
A station on Main,  
She asked an attendant  
For help, not in vain.

It seemed that some prankster  
With nothing else to do,  
Had decided to be smart,  
To do something new.

By opening the hood,  
And pulling some wires,  
He had disengaged the sparkplugs,  
But hadn't touched the tires. (I wonder why!)

Her predicament ended,  
She wanted to rest,  
Got into the car,  
Which had back its zest.

She headed the car homeward,  
And she drove out of sight,  
Called, "Thank you so much for  
Your help on this night!"

This story has a moral. If we're supposed to be college students, why not act like such?

## Is Joe College Old-Fashioned?

On this campus the eccentric is spurned. In the classroom he is laughed at. Social organizations will not have him. People stare at him as he walks across the campus in his odd hat and worn overcoat. He is "different," not one of us. Automatically we dislike and distrust him. Yet we never really try to understand his eccentricity.

For many years colleges searched for the "well-rounded individual," the "Ideal Man." They found him, to a degree. He was a tall, good-looking, All-American type. He played mediocre football. He danced quite well and played clarinet in the local dance band. He was a fair student, but hardly creative. He joined a fraternity and became a part of the collegiate social elite. We think of him almost affectionately as "Joe College."

But he is a man of the past, a last remnant of an era which began in the twenties, when a boy went to college for a roaring good time, and nothing else.

Enter the age of the individual who asserts his individuality. Hail the eccentric. It is these people who go their own way and think their own thoughts who will build the better world of tomorrow. The white sheep will find themselves lost while the black sheep are out jumping the fences in happy pursuit of worth while goals. It may be some time before we realize this, but when we do it will be the person who asserts his individuality who claims the "All-American" title.

## Chalk Talk . . . Bob Cobb

Want increased school spirit? Sure, we all do.

This greatly-desired intangible cannot be artificially manufactured by freshman hazing, pep clubs, or letter clubs. Regardless, school spirit is to be found where superior athletic teams abound. (no poetry intended) Our problem at NWMSC concerning school spirit and athletics is: athletics are neither emphasized nor de-emphasized!

### Indifferences

It seems to us that, on occasion, NWMSC putters along with a lackadaisical, indiffer-

ent attitude concerning sports. What we need to do is to either place a great deal of stress on athletics and enter the recruiting war wholeheartedly, or never mention them at all.

At present our athletic program appears to be riding the fence in order to keep the peace, but how long must the students endure this indifference?

NWMSC should have athletic teams it can be proud of. When people think of Oklahoma or Ohio State, or on our own scale, Springfield or Cape Girardeau, do they picture the output of Rhodes Scholars?

NO, they think of the great teams and athletes which have come out of these institutions. We don't say this is the right attitude we only recognize its existence.

We wonder: How many students know what our seasons' records in basketball or football were this year? How many would be proud to tell them if they could or wanted to remember?

Is this an example of good school spirit? NO. Administrators retaliate with, "Colleges are for education." This is true without a doubt, but believe it or not, athletics are an integral part of our educational system; they are here to stay.

In the past few years, we have not been fortunate to have been blessed with high-ranking athletic teams; thus, the school spirit is down. There have been cries for the ears of our coaches. Now we don't always agree with their decisions and maneuverings, but they get paid to coach and we don't. Coaches don't play the games. A team is only as good as its players make it; if you don't believe it take a look at the standings of Casey Stengel's New York Mets.

In order to get top-caliber athletes, we must receive help from our numerous alumni who are in the coaching field. Lately we haven't had it. This is also an example of poor school spirit on the part of this group. Without a stepped up recruiting platform, our teams will continue to be mediocre.

Again the question arises, "How can we increase school spirit?" Bringing back beanies, Walk-out Day, hazing isn't the answer. They haven't done it before.

Let's field some top-flight teams and school spirit will be launched anew. Let's get off the fence and into the spirit!

## Bearcats, Cards Split Wild Home Run Derby

Oh, that rabbit ball!

Both Northwest State College and William Jewell wore their hitting caps Friday as the two clubs split a double header at Liberty which featured 10 home runs and a total of 53 runs scored.

The Bearcats routed Jewell 25-12 in the opener on the strength of home runs by Bernie Ricono, Steve Crowley and Jim Jackson.

Bill Ludwig relieved Jim Sanders in the fourth when the 'Cats had a 16-3 lead and finished the game. Sanders picked up the victory.

Home runs for the Cardinals in the wild game were poked by Dennis O'Brien and Gary Kerr.

Jewell rapped out an 11-5 win in the second contest with Kerr and O'Brien again cracking roundtrippers. Crowley blasted another circuit clout for the 'Cats in the nightcap.

For both games, the Bearcats totaled 26 hits and eight errors and used four pitchers, while Jewell had 23 hits, 12 errors and used six pitchers.

## 'Cats Drop Dual Test To Graceland

Even without the services of three top men, Graceland College of Lamoni, Ia., romped to a 78-58 dual track win over Northwest State College Tuesday on the MSC cinders.

Minus the services of flustricken Rich Simmons, Ron Carter and Ralph Strait, the Yellowjackets took firsts in 10 events and shared another first.

Woodrow Wilson led the winners with 11 1/4 points. He took the 100- and 200-yard dashes and ran on the winning 880-yard relay team.
